Experience

Prime Digital Academy - Full Stack Software Development Student   **Janurary 2018 to Present**

Solo Project: Travel Tracker
- Created application to better understand and reminise about past travels using gps coordinates.
- Travel Tracker will allow user to upload raw .gpx files that will be shown on the page and will let the user manipulate certain aspects of the data to better facilitate their recolection in the future.
- Node.js, React, Google-Maps-React, Moment, Postgresql.

Group Project: Team Strudel Haus
- Worked collaboratively with three other classmates throughout the entire process to create a infinitely dynamic fundraising portal for our client Ruhland's Strudel Haus.
- Our fundraising app will allow our client to create accounts for his business partners which will enable them to sell a choice of ten strudel items on a personalized url of their choosing.
- Technologies used were React, Node.js, Postgresql, Express, Square API

U.S. Bancorp - Work Coordinator   **May 2016 to Janurary 2018**
- Reviewed wholesale mortgage documents under U.S. Bank Home Mortgage Guidelines.
- Processed and reviewed flood insurance under the national flood insurance act of 1968
- Provided research and testing on new projects for Home Mortgage Dept.
- Trained Underwriters on the process of newly implemented projects

American Legion Post 580 - Wedding Server   **June 2005 to March 2018**
- Organized and prioritzed work flow and daily assignments to ensure efficient pace
- Collaborated with other employees to facilitate gatherings of up to 180 guests.
